

As Minister for Culture, the Honourable M. A. Nanga is a man of the people, as cynical as he is charming, and a roguish opportunist. At first, the contrast between Nanga and Odili, a former pupil who is visiting the ministry, appears huge. But in the eat-and-let-eat atmosphere, Odili's idealism soon collides with his lusts - and the two men's personal and political tauntings threaten to send their country into chaos. Published, prophetically, just days before Nigeria's first attempted coup in 1966, *A Man of the People* is an essential part of his body of work dealing with modern African history.
