

Designed for people with cancer who would like to take an active part in assisting with their own healing. On the first part of this audio program, which has helped many people shift their thinking patterns when used on a daily basis for 30 days, Louise shows that forgiveness is the key to releasing negative emotions, and resolving diseases such as cancer. On the second part of the program, Louise presents a loving visualization with soothing music, aimed at changing old attitudes of long-held resentment and dissolving disease. This material is excellent for practitioners and therapists who treat people with cancer.
