

Entertaining Angels will open the eyes of community leaders regarding the youth lost among our society. This intense novel will tug at your very heart strings as an outcry for families living in dire circumstances. Entertaining Angels begs for an understanding and commitment from our community leaders-not just to enforce justice but to educate and prove to down-trodden families that life can be different. Walk with the author on a spiritual journey that begins in childhood and stretches into adulthood. Stay with her as she struggles to find compassion in a life where she feels worthless and unloved. Although designed for professionals in the social services industry, Entertaining Angels is also a useful guide for families involved with their local child welfare agency, inmates, those participating in a court ordered activity, and especially the lost soul who is begging to be found. An example of existence without nurture rests in the pages of Entertaining Angels. Whatever your profession, position, or religion, this story calls for a healing in both our personal family lives and the services designed to care for our families. It is an awakening in what should matter most and a call toward reliving oaths taken to make a difference in our world!
