

A skilled and evocative wordsmith and songwriter who made her first at 11 years old, and since then has built up a compelling, fascinating body of work, Bjork, uniquely among multi-million-selling international artists, has always maintained a defiantly experimental edge to her music. Human Behaviour is a detailed analysis and celebration of Bjorks career and musical history to date, delving into her creative processes and motivations with the same insight with which she tackles the human condition. From her precocious pre-teen debut through the giddy electro-leaning delights of Debut to current hit Vespertine, Human Behaviour will be the definitive companion to Bjorks musical output - and a must-have for her legion devoted fans.
