

After the U.S. is conquered, an enclave of brilliant misfits leads a rebellion against near-impossible odds. The totalitarian East has triumphed in a massive invasion and the United States has fallen to a dictatorial superpower bent on total domination. That power is consolidating its grip via concentration camps, police state tactics, and a total monopoly upon the very thoughts of the conquered populace. A tiny enclave of scientists and soldiers survives, unbeknownst to America's new rulers. Its six against six million—but those six happen to include a scientific genius, a master of subterfuge and disguise who learned his trade as a lawyer-turned-hobo, and a tough-minded commander who knows how to get the best out of his rag-tag assortment of American discontents, wily operators, and geniuses. Its going to take technological savvy and a propaganda campaign that would leave Madison Avenue aghast, but the U.S. will rise again. The counterinsurgency for freedom is on, and defeat is not an option. At the publishers request, this title is sold without DRM (DRM Rights Management).
