

Deep in the lush and dangerous rain forests of Peru, Alexandra Pace and her team search determinedly for a cure for deadly diseases. One strain of the disease has already begun the process of ravaging Alexandras own mind and body. Finding a cure is the only hope for her and for her daughter, who has almost certainly inherited the same disease. Alex believes she is searching for a needle in a haystack until she meets Michael Kenway, a British doctor who lost his wife when mad cow disease ravaged Britain in the 1990s. He presents her with an incredible story--a patient suffering from the disease was cured by a mythical healing tribe living deep in the Amazon jungle. Reluctantly placing her faith in Michael, who is entirely too religious for her comfort, Alexandra and her team seek out an unreached indigenous group who may hold the cure not only for Alex, but also for the world. Award-winning, best-selling author Angela Hunt combines the unique rainforest setting, modern science, and a thrilling race for a cure into a powerful message of faith and redemption.
